Steel of Fortune

The Bite

You've taken care of your old mattress, but still puzzled about what to do with the bed frame? Toss it in the Van\_\_ and bring your things to United Scrap Metal. USM will melt down your wrought-iron headboard, steel-frame sofa, and any other metal-based furniture you've got (we doubled our closet space by ditching a few filing cabinets), and pay you for it (cash prize: a nickel per pound).

It'll vow \_\_ to sell off the steel for stuff like new building construction or railroad rails, reducing the tons of metal that end up in landfills and saving up to 75 of the energy that goes into mining new steel. Pickups are for major demos only, so load up and take a spin.

Wanna Try? United Scrap Metal, Inc., 1545 S. Cicero Ave. at W. 16th St., Cicero (708-499-2958).

Vote in the National Cheney Impeachment Poll
